**Maximize Your College Experience**

**Individualized ADHD Coaching and Support for College Students**

**ADHD College Success: A Different Approach**

Too often ADHD students make the mistake of trying to do college like everyone else. The ADHD brain is different—not deficient, not broken, just different. To succeed, you need tools that work with your brain, not against it. ADHD Coaching provides the right type of support that allows you to harness your unique strengths, develop effective strategies, and thrive academically and personally.

## Parents

Are you a parent of a college student and would like to learn more about ADHD college coaching and support for your child?

## **About Me**

After 16+ years of coaching college students with ADHD, I have learned what works (and what doesn't)

when it comes to helping students achieve success. ADHD Coaching provides students with tools that gain. Unlike other types of support, it's not about instructing or (works). Instead, it involves helping students understand their own brain and create an ADHD-friendly action plan for success.

## Available Now!

Every year, countless ADHD students make the mistake of trying to do college like everyone else. Learn how to college the right way using tools and strategies that work with, and not against, the ADHD brain.
