Description

## Teacher Workshops

### Motivating Today's Student June 14th or July 12th

Motivating Today's Student is a fun informative workshop that decodes the truths behind classroom motivation. Learn about the latest research, tools, and strategies for minimizing classroom disruptions, boosting attention, and empowering students to become increasingly engaged independent learners.

Teachers will learn:

Research-based strategies for boosting attention and reducing behavior disruptions

Coaching tools for fostering independence and building confidence

Strategies for helping students improve organization and time management skills

Effective methods for getting parents to listen

What every teacher should know about ADHD medication

Strategies that specifically address ADHD and co-existing disorders

## Workshop Details
